1	Professional employment
2	Non-professional employment
3	Not known/Not applicable

ADDITIONAL INFORMATION

This field is a grouping of the valid entries in derived field XSOCD02 'Standard Occupational Classification (SOC (DLHE)) grouping'.

Although Null is not a valid entry in XSOCD02, it can be output if a SOCDLHE2010 value does not correspond to a known value. This is an error, designed so that the derived function does not fail and that the issue can be identified at impossible values testing to flag the issue to HESA's Data Management team. Nulls in XSOCD02 are derived to a Null in XPROFEMP01 for the same reason.

Null is not a XPROFEMP01 valid entry, and is to be identified at impossible values testing and flagged to HESA's Data Management Team.
