ADDITIONAL INFORMATION

This field groups the country of provision entries from the Aggregate offshore collection (Cyy052) to regions in a manner consistent with the Student collection's domicile derived fields.

The valid entries for this field are created from an overseas lookup table, provided by Data Management, which includes all the valid country entries in the column F_DOMICILE_ISO. (The Aggregate offshore collection country entries are a subset of the Student collection DOMICILE entries.)

Entry XL is the National Statistics County Classification (NSCC) code for Channel Islands not otherwise specified, but is used in this field to label Guernsey and Jersey. (Guernsey and Jersey includes Channel Islands not otherwise specified.)

(Note: GROO Geographic region - Non-European Union unknown cannot be derived in XREGAG01 and is not included in the valid entries. In the Student collection's domicile derived fields (XDOMGR01 and XDOMREG01) GROO is derived from Cyy051.DOMICILE code ZZ where Cyy051.FEEELIG (Fee eligibility) is 2. Neither COUNTRY code ZZ nor FEEELIG are included in Cyy052).
