If **any** of Student.ALLACT1, ALLACT2, ALLACT3, ALLACT4, ALLACT5, ALLACT6, ALLACT7 or ALLACT8 are coded 1, then return 1 as XPAIDEMP01.

Else if **any** of Student.ALLACT1, ALLACT2, ALLACT3, ALLACT4, ALLACT5, ALLACT6, ALLACT7 or ALLACT8 are coded 2 (with code 1 not already found by previous row), then return 2 as XPAIDEMP01.
