

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Academic employment marker	XACMRK01	1	Char	2.1.2

VALID ENTRIES

- 1 Academic contract
- 2 Not an academic contract/Not applicable

ADDITIONAL INFORMATION

This field groups the HESA Staff record (Cyy025) academic employment function field's valid entries into either an 'Academic contract' or 'Not an academic contract/Not applicable' marker.

The academic employment function (Contract.ACEMPFFUN) field identifies the employment function for the contract at the return date or the end date of the contract if earlier, and relates to the contract of employment, and not to the actual work undertaken.

Academic staff are defined as academic professionals who are responsible for planning, directing and undertaking academic teaching and research within higher education providers (HEPs). They also include vice-chancellors, medical practitioners, dentists, veterinarians and other health care professionals who undertake lecturing or research activities.

Where a staff contract includes both academic and non-academic aspects, an academic valid entry is returned in Contract.ACEMPFFUN only where the primary employment function is teaching and/or research.

(A null return can only be submitted for Contract.ACEMPFFUN where Standard Occupational Classification (SOC2010) in all associated Activity entities (Activity.ACTSOC) is coded outside of major groups 1, 2 or 3).

DEPENDENT FIELDS

none

TECHNICAL SPECIFICATION

Contract.ACEMPFFUN (CHAR 1)	XACMRK01
1, 2, 3, 9	1
4, Null	2

Revision 2.1.2 2015-01-15 (Additional information amended to clarify that a null return can only be submitted for Contract.ACEMPFFUN where Standard Occupational Classification (SOC2010) in all associated Activity entities is coded outside of major groups 1, 2 or 3. References to higher education institution (HEI) have been replaced with higher education provider (HEP). Reference to institution (as a short-hand for higher education institution) has been changed to provider. The change enables HESA to refer collectively to both publicly funded higher education institutions and privately funded alternative providers within its constituency)
