ADDITIONAL INFORMATION

The salary at reference date is grouped into bands between £1 up to £150000 and subsequently over £150000.

Not applicable includes atypical staff for whom salary data is not required.

Note to analysts: Where Contract.SALREF is null (not applicable) this is derived to 0 (zero) in XSALR01 - as HESA's standard onward analysis removes salary returns of £0 and null. As XSALG01 is dependent upon XSALR01's derivation of Not applicable to 0, this is accommodated into the valid entry \$\$ '£0/Not applicable'. Valid entry 01 consequently has a range of £1 to £7000.
