ADDITIONAL INFORMATION

The purpose of this derived field is to indicate the year an instance was last active. Instances are uniquely identified through the combination of UKPRN, HUSID and NUMHUS fields - the 'UHN'.

This derived field is created in both the Student record (Cyy051) and the AP student record (Cyy054). In the Student record it uses the data in Instance.MODE; AP student uses the collection-specific XINACT01 derived field.
