

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Publication population marker (DLHE)	XPUBPOPD01	1	Char	1.4.1

VALID ENTRIES

1	Record is included in the DLHE publication population
0	Record is not included in the DLHE publication population

ADDITIONAL INFORMATION

This field derives a publication category for records in the DLHE collection, based on the characteristics of the associated instance submitted in the Student record.

This field is created in both the Student and DLHE records, using the XPDLHE02 derived field created for the record in question. In the Student record the field will indicate those who met the criteria from amongst the whole of the student population returned in that record - the 'target' population. If this field is created on the DLHE record, it will be limited to those who completed the DLHE survey: the 'respondents' population.

The publication category includes those who are UK or EU domiciled and are:

- (1) an undergraduate or postgraduate (taught) instance, or,
- (2) a postgraduate (research) level but the qualification was not obtained from dormant mode.

DEPENDENT FIELDS

None.

TECHNICAL SPECIFICATION

XPDLHE02 (Cyy051 if created in the Student record, Cyy018 if created in the DLHE record) (CHAR 1)	XDOMREG01 (Cyy051) (CHAR 4)	XDLEV501 (Cyy051) (CHAR 1)	XMODE01 (Cyy051) (CHAR 1)	XPUBPOPD01
1	XK, XL, IM, XF, XI, XH, XG, GREU	1	1, 2, 3, 4, 5, 7, 8	1
			6, 9	0
		2, 3, 4		1
		5, _		0
	GRAF, GRAS, GRAU, GRME, GRNA, GROE, GRSA, NOTK			0
2, 3, 0, _				0

Revision 1.3.1 2015-08-27 (XDOMREG01 valid entry GROO removed, and NOTK added, to correspond with changes to that field for 14/15.)

Revision 1.3.2 2016-02-08 (Additional Information section updated to clarify the difference between this field when created on the Student and DLHE records.)

Revision 1.4.1 2016-11-01 (New XMODE01 valid entry 9 added to exclusions in the Technical Specification section.)
