

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Country of higher education provider - Open University split by national centres	XINSTCOU01	1	Char	1.1.2

## VALID ENTRIES

E	England
S	Scotland
W	Wales
N	Northern Ireland

## ADDITIONAL INFORMATION

This field presents a country of location using the postcode (unit level) of the higher education provider's (HEP) administrative centre for all HEPs, with the exception of the Open University. Lookup tables derive country using Office for National Statistics (ONS) data.

Although the Open University's administrative centre is located in England, it teaches throughout the UK, and has national centres in Wales, Scotland and Northern Ireland. This field derives students at the Open University to either England, Wales, Scotland or Northern Ireland, using the CAMPID field returned in the Student record. (Please note that all non-UK domicile students, plus those who study at postgraduate research level (PGR) with the Open University are registered to the administrative centre in England).

There may be students registered at HEPs who are studying in countries other than that of the administrative centre.

The HESA Data Management STATIC\_DATA.INSTHQPC\_LOOKUP lookup table is updated with the Office for National Statistics Postcode Directory (ONSPD) in November, May and August each reporting year. However, HESA would not expect the country of higher education provider to change within a HESA reporting year. Consequently this specification is updated only to coincide with the August ONSPD, with the suffix '\_(Y2)AUG', with no subsequent updates for collections within the same reporting year.

The August ONSPD update is used to ensure that all postcodes valid in a reporting period can be validated during submission. The static data postcode lookup tables provided by Data Management are updated with the August ONSPD when it becomes available, in addition to the November and May postcodes loaded earlier in the reporting year.

If the analysis of Country of Higher Education Provider for DLHE requires the Open University to be split by national centres link to this Student derived field. If an Open University split by national centres is not required link to the Student/AP student derived field XINSTC01.

## DEPENDENT FIELDS

None

## TECHNICAL SPECIFICATION

Please note: In the following specification, the table suffix '\_(Y2)AUG' refers to a year-specific reference derived from the reporting year. For 2013/14, Y1 is 13 and Y2 is 14, thus for 2013/14 the table suffix would be 14AUG, and for 2014/15 the suffix would be 15AUG, and so on.

The HESA Data Management STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG table is created as part of the processing of the ONS postcode data loaded into Oracle. It uses the value for main campus postcode from the HESA Contacts database.

All valid UKPRNs (UK Provider Reference Numbers) must be added to the HESA Data Management STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG lookup table in Oracle.

Where the UKPRN submitted is that of the Open University, the CAMPUS field is used to derive a country of location for XINSTCOU01.

Where the UKPRN is not that of the Open University, but is found in the STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG F\_UKPRN column, then STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG F\_CTRY is returned as XINSTCOU01.

Where the UKPRN is not that of the Open University, and is not found in STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG F\_UKPRN column, then Null is returned as XINSTCOU01. This is an error, highlighting that a value in the collection's UKPRN field is not contained in the STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG lookup table's F\_UKPRN column. This is designed so the derived function does not fail. Nulls are to be identified at impossible values testing to flag the issue to HESA's Data Management team.

**STATIC\_DATA.INSTHQPC\_LOOKUP\_(Y2)AUG table consists of 8 columns:**

Column	Description
F_HHESA	HESA higher education provider identifier
F_OPOSTCODE	Full postcode of higher education provider HQ
F_XDOMUC01	County/unitary authority of higher education provider
F_GOR	Region of higher education provider
F_CTRY	Country of higher education provider
F_CTRY_ISO	Country of higher education provider (2-letter ISO-3166-1 format)
F_UKPRN	UK Provider Reference Number
F_XPROVTYPE01	Flag to identify the the type of provider e.g HEI or AP
F_XPARTCAT01	Flag to identify the groups of collections to which a provider submits data

Institution.UKPRN	Instance.CAMPID	XINSTCOU01 (CHAR 1)
10007773	A	E
	W	W
	S	S
	N	N
	Otherwise (including Null)	E
Not 10007773 and found in STATIC_DATA. INSTHQPC_LOOKUP_(Y2)AUG.F_UKPRN		STATIC_DATA. INSTHQPC_LOOKUP_(Y2)AUG.F_CTRY
Not 10007773 and not found in STATIC_DATA. INSTHQPC_LOOKUP_(Y2)AUG.F_UKPRN		Null
