

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
Mode of study - three way grouping	XMODE301	1	Char	1.2.1

## VALID ENTRIES

1	Full-time (including sandwich)
2	Part-time
9	Other

## ADDITIONAL INFORMATION

This field groups the output of derived field XMODE01 (in the Cyy051 Student record) or XMODE02 (in the Cyy054 AP student record) into a three-way marker. It is designed to be used in conjunction with the HE standard registration population (XPSR01), as it derives writing up, sabbatical, dormant and FE continuous delivery instances - where present - to 'Other'. In the AP student record only codes 1 and 2 can be derived from XMODE02.

Code 1 'Full-time' includes sandwich instances.
