TECHNICAL SPECIFICATION

When an Entry Profile is supplied for a continuing student, XEPYEAR01 is populated with a four digit year value based upon the reporting year, regardless of whether or not the elements in the Entry Profile have changed. The value should be the first year of the reporting period, i.e. 2015 for 2015/16.

Revision 2.2.1 2016-01-12 (Technical specification updated to unambiguously express the value that should be created in this field. No change to function.)
