

Field Description	Field Abbreviation	Field Length	Field Type	Field Version
HESA higher education provider identifier	XINSTID01	4	Char	1.28.1

## VALID ENTRIES

## ADDITIONAL INFORMATION

The UK Provider Reference Number (UKPRN) is submitted by higher education providers (HEPs) in all HESA collections. This derived field will add HESA's own internal higher education provider identifier to relevant datasets, as listed in Data Management's HEP specification for each collection, to allow linking between streams and collections. As the HEP constituency of each collection may differ, the list of valid entries listed in this field may not be applicable to all collections.

XINSTID01 is not derived for the KIS (Cyy061) collection. Therefore the list of valid entries excludes HEPs that are a constituent, for HESA, of only this collection (known as submitting a 'KIS course only'). If a KIS course only HEP is subsequently added to other collection's constituencies it will be added to the list of valid entries for XINSTID01.

The mapping to a HESA higher education provider identifier is carried out through the use of a static data lookup table (see technical specification, below), supplied by Data Management. From 2014/15 the lookup has switched from the previous UKPRN\_LOOKUP table to the INSTHQPc\_LOOKUP table. The values of UKPRN are taken from UK Register of Learning Providers (<http://www.ukrlp.co.uk/ukrlp.first>).

### DEFINITION

Each HEP in the collection will submit a UKPRN. Where specified, this is mapped using a static data lookup table to a HESA higher education provider identifier and returned in XINSTID01.

## DEPENDENT FIELDS

none

## TECHNICAL SPECIFICATION

Where this specification exists for a collection, XINSTID01 is added against each HEP - using a value held within the HESA Data Management static data lookup table in Oracle. If no match is made between the collection's UKPRN and a UKPRN held in the static data lookup table the function will output an invalid null value.

Please note: In the following specification, the table suffix '\_(Y2)AUG' refers to a year-specific reference derived from the reporting year. For 2013/14, Y1 is 13 and Y2 is 14, thus for 2013/14 the table suffix would be 14AUG, and for 2014/15 the suffix would be 15AUG, and so on.

1. Where the UKPRN value is found in the static data lookup table F\_UKPRN, return F\_HHESA as XINSTID01.
2. Where the UKPRN value is not found in the static data lookup table F\_UKPRN, return Null as XINSTID01. This is an error, highlighting that a value in the collection's UKPRN field is not contained in the static\_data lookup table F\_UKPRN column. This is designed so the derived function does not fail. Nulls are to be identified at impossible values testing to flag the issue to HESA's Data Management team.

### STATIC\_DATA.INSTHQPc\_LOOKUP\_(Y2)AUG table consists of 8 columns:

Column	Description
F_HHESA	HESA higher education provider identifier
F_OPOSTCODE	Full postcode of higher education provider HQ
F_XDOMUC01	County/unitary authority of higher education provider
F_GOR	Region of higher education provider
F_CTRY	Country of higher education provider

Column	Description
F_CTRY_ISO	Country of higher education provider (2-letter ISO-3166-1 format)
F_UKPRN	UK Provider Reference Number
F_XPROVTYPE01	Flag to identify the the type of provider e.g HEI or AP
F_XPARTCAT01	Flag to identify the groups of collections to which a provider submits data

UKPRN (as submitted in each collection)	XINSTID01 (CHAR 4)
1. Found in static_data.insthqpc_lookup_(Y2)aug.F_UKPRN	static_data.insthqpc_lookup_(Y2)aug.F_HHESA
2. Not found in static_data.insthqpc_lookup_(Y2)aug.F_UKPRN	Null

---

Revision 1.26.1 2016-02-25 (Valid entries aligned with those providers contractually agreed to return data to HESA for the 15/16 collections, which currently excludes Alternative providers (APs). No change to technical specification.)

Revision 1.27.1 2016-09-28 (Valid entries updated to include Alternative providers (APs) contracted to return data to HESA for the 15/16 collections: ranges 0214 - 0227, 0231 - 0333 and 0338 - 0339. Removal of existing valid entry 0133 Institute of Education, which has merged with 0149 University College London. Label updates to existing valid entries 0145 St. George's, University of London; 0154 Newcastle University; 0189 Writtle University College; and 0210 University of Suffolk. No change to technical specification.)

Revision 1.28.1 2016-11-01 (Valid entries updated to include providers expected to return data to HESA for the 16/17 collections.)
